

# WEEK THREE: What are Angels?

**Big Idea:** Angels help us even if we don't notice.

**HANG OUT** When you hear someone talk about an angel or angels, what do you think of? Why? Have you ever thought about what angels do? What do you think? Why?

**HEAR** If you have a concordance in your Bible, use it, OR if you do not, use a Bible search engine online (like biblegateway.com) and look up the word, "Angels." Go through and read some of the references in the New Testament. Ask: What does the verse tell you about angels? How are they connected to God in the verse? What do you think their job is? How do you think angels help us know God's love or experience God's love?

Warning: Some people begin to get so interested in angels that they almost worship angels instead of God. This is not the point at all. Angels show us God's love and help us experience God or hear from God.

Why or how do you think people can forget that or confuse it?

**HUDDLE** Hebrews 13:2 tell us that when we welcome outsiders, some people have welcomed angels without knowing it. This is a great reminder to treat everyone the very best we can. Pray and ask God that he would help you show others his love and kindness in the very best way possible.

Pray together.
